

## **CA-3**

### **CSE-111**

#### **What to do?**

- You are to submit a portfolio of your technical profiles made by you and also any activities performed by you.
- You are to show your skills with git and github.
- You are to showcase your achievements or any MOOCs done so far through a CV with a proper format.

#### **How to do it?**

- Sign up at linkedIN, github, geeksforgeeks, hackerearth, hackerrank, quora, stackoverflow and figma.
- Maintain proper profiles and connect them to maintain connections with your technical profiles, like your linkedIN should display your hackerrank, github, etc.
- Perform some relatable activity in these profiles.

#### **How to account this in your portfolio?**

- Create a CV as per the format attached.
- Add screenshots of your updated profiles.
- Add proper descriptions and links to your profile.
- Add links of your profiles to given google form.

#### **How to submit?**

- PDF to be uploaded on LMS> Assignment Uploads> CSE111
- PDF should not be larger than 5MB
- No files to be submitted through LPULIVE.
